INTELLECTIONS 2019

Doctoral Theses Discussions of Physics Alumni

on 9 February 2019 (Saturday) 9.30 am

Organized by

**Department of Physics &
Physics Association**

As an initiative to celebrate the academic achievements our physics alumni and motivate our students to pursue a career in scientific research, Department of Physics & Physics Association organized INTELLECTIONS-2019, a Doctoral Theses Discussions of Physics Alumni on 9 February 2019. The primary goal of the programme was to motivate our undergraduate and postgraduate students to pursue a career in scientific research through sharing the research experiences of our alumni. Dr. Rashid TP (magnetic refrigeration), Dr. Ahmed Raseen Nanakkal (NanoScience) , Dr.Shafeeque Ali (Non-linear Fibre Optics) and Dr.Saheer Cheemadan (Thin Films) presented their research works and explained recent trends and future avenues in their respective areas. The programme was successful in exposing some preliminary ideas about a research career and how to prepare to find out suitable research avenues.
