

7.3.1 - Portray the performance of the Institution in one area distinctive to its priority and thrust within 200 words

SANTWANAM

A club is formed for the helping the needy in the neighbourhood of the college.

Objectives

- Eradicate starvation and hunger
- To provide medical assistance to the needy people of the neighbourhood
- Personality development of the student through the charity work
- Inculcating the values of love, mercy, willingness to work for the poor among the student through social services

History

In the year 2008, NSS volunteers of our college conducted a socio-economic survey in the adopted village. Perumparamba(Great land) was the adopted village of NSS on that year.

Survey report reveal the actual picture of the society of Perumparamba. Most of the people live in high economic status, but a minority have no shelter, food and medicine.

In that survey we found that a lady is living in a dirty one room house, and in another family mother and son have mental disease and no one to care them. These type of facts was very shocking to the NSS volunteers and program officers. So they decided to form a charity club for helping the needy neighborhood of the college.

Working Style

All degree students are the members of the santwanam club. In each class two students are selected as representative and they became the members of Executive body of the club From this selected executive members elect Secretary, Joint Secretary and treasurer of the club.

Every month representative of the class collect the money from the class and handover this amount to the treasurer of the club. Treasurer collect money from all classes and keep the record of income and expenditure. Treasurer is the custodian of the record.

Club Secretary every month collect the requirements of the needy people and prepare a list of requirements and then purchase the food materials. Packing the kit and then the distribution is the duty of Executive members.

Major Activities:

Every month Santwanam provides food grains to the needy people, Six families availing this facility.

Every month volunteers provide medicine to the needy people, two families availing this facility.

Two houses were repaired by the volunteers of Santwanam club.

Office bearers

Coordinator: K.Shameem, Department of Computer Science

KANIVU

Kanivu, a fund of charity was started twenty years ago, collecting contributions from the staff and students of the college. The fund was set up with an objective of providing financial aid to the poor students of the college and the very needy people who approach the college for aid from time to time.

Objectives

The objectives of the club are

- to help the students from financially backward families.
- to cultivate in the students values like cooperation and empathy.
- to develop kindness of the students through charity works.
- to inculcate helping mentality of students by helping their own friends.
- to bridge the gap between society and the student community.
- to cultivate democratic spirit and leadership qualities.
- to increase the commitment of the students towards the society.

Manner of Work

The institution, since its inception gives great significance to charity works. Since the college is located in the backward district, Malappuram, there are so many financially weak students who hail from minority communities and scheduled caste and tribe. The principal and the tutors in charge of each class find out the struggling students and extend financial help to them. Free meals, free books and waiving of tuition and examination fees are some of the major initiatives taken up by this club.

The students and staff make their contributions to the fund once in a week. On every Wednesday, fund is collected from students and teachers. This day is observed as Kanivu Day. A student volunteer collects the amount from all classes and from staff on Kanivu Day and this amount is handed over to the principal.

The Principal prepares the list of eligible students after consultations with the concerned tutors and distributes the amount in a strictly confidential manner. This fund is also used to provide financial aid to those people who are ill, poor, helpless, and are desperately in need of financial aid.

Palliative Activities

The objectives of the SIPC wing at Sullamussalam Science college is to offer medical and palliative care, and financial assistance to the weak, the elderly, and those suffering from chronic diseases like cancer. The SIP offers psychological, social, spiritual support to the needy in the neighborhood of the college.

Another aim of this forum is to encourage students to reach out to the society, which will help mould them as ideal citizens who will be an asset to the nation. Palliative care unit is aimed at inculcating the values of love, mercy, willingness to work for the poor among the students through social services

Malappuram, being one of the most backward districts in Kerala has a huge number of population belonging to backward classes who cannot afford advanced medical and health care facilities.

Areekode, a village in Malappuram where the college is situated is surrounded by colonies of labourers who belong to the socially and economically backward classes. Because of pollution from neighboring industrial factories, like the Mavoor Gwalior Rions, The percentage of people suffering from cancer in the vicinity of the college was very high.

It was in this context, the college decided to employ students to offer voluntary care and assistance to deprived population in our neighborhood.

Students in Palliative Care (SIPC), an offshoot of Institute of Palliative Medicine (IPM) is a platform for our students to reach out to the needy and weak in the neighboring community. It is an excellent forum for students to bond with the community in and around the institution. The palliative care unit in the college began its activities in collaboration with the palliative care clinic at Areekode in 2009. In 2011, an independent unit was set up. This unit was known as students' initiative in palliative care. There is a consistent dialogue between the clinic at Areekode and the palliative unit in the college

PALLIATIVE DAY ONE DAY COLLECTION

Being the part of the Students Initiative in Palliative Care, Sullamussalam Science College Areekode conducted an one day fund collection on 15th January 2021 Palliative Day. We collected Funds from students through both Online(Google Pay/Phone Pay) and Offline (Bucket Collection). We got ₹3462 by bucket collection and ₹1358 by online collection. We collected ₹4820 totally. (4719rs in poster get 100 rs after that).

CARE FOR TEACHER

Being the part of students initiative in palliative care, Sullamussalam Science College Areekode conducted a fund collection programme “CARE FOR TEACHER” for the treatment of our one of the guest teacher's mother. We collected fund from students through both online and offline platforms. We began the fund collection on 6th April 2021 and finished on 17th April 2021. We collected ₹20412 by online(G.pay and phone pay) and ₹8010 by offline. Totally we collected ₹28422. On 19th April 2021 we handovered the cash to the teacher.

Ramadan Box

Students Initiative in Palliative Care, Sullamussalam science college Areecode conducted a cash collection during the month of Ramadan with the aim of helping poor students in our college. We collected cash from students through both online and offline platforms. We collected 2160/- by offline and 9841/- by online(G.pay and phone pay) collection. We totally collected 12001 rs. On 07/05/2021 the cash was handed over to Basheer Sir, the principal of the college and later it was given to 8 financially backward students of the college itself.

The poster features a central graphic of a crescent moon and stars. At the top, there are decorative Islamic geometric patterns. In the top left corner is the SIP logo, and in the top right corner is the Sullamussalam Science College Areecode logo. The main text is in Malayalam, with the title 'റമാദാൻ പൊക്സ്' (Ramadan Box) in large, stylized letters. Below the title is a quote in Malayalam enclosed in a box. At the bottom, the college name 'S I P Sullamussalam Science College Areecode' is written.
